

# FlipPad™

Slimline

The antimicrobial case for the iPad Pro 9.7-inch & iPad Air 2

**Wipe Clean Design:**

Seamless design and precision manufacture allow minimal crevices and a single-wipe cleaning motion.

**Works with surgical gloves:**

The glass screen allows smooth, sensitive iPad control even when wearing surgical gloves in clinical environments.

**Slimline Design:**

The Slimline design retains the cleanable DNA of the FlipPad, but makes it simpler to transport and charge.

**Resistant to Chemicals:**

Water resistant, and with FDA compliant materials, the FlipPad Secure can be cleaned repeatedly with the harshest cleaning chemicals (3000 ppm Bleach).

## Slimline

Dimensions	11.4"(L) x 8.5"(H) x 0.9"(D) / 288mm x 215mm x 22mm.
Weight	585g without an iPad®.
Materials	A chemical resistant polycarbonate shell is double-moulded with drop-resistant TPE to give your iPad the best protection. All external materials are FDA approved or compliant.
Water Resistance	Water resistant. The FlipPad can sustain being cleaned by sprays and wipes without risk of liquids damaging the FlipPad's contents.
Power Charging	Fits all standard Apple® Lightning, VDU, HDMI cables with no adapters required.
Connectivity	No loss of 4G , Wi-Fi or Bluetooth connectivity.
Antimicrobial Corning® Gorilla® Glass Screen	A clean, tough cover glass made possible by embedded ionic silver with antimicrobial performance that lasts through the lifetime of the touch display.*
Gorilla® Glass Screen	The first antimicrobial cover glass to obtain US EPA registration.*
Scratch Resistance	Corning Gorilla Glass has up to 2x better damage resistance than competitor glass and many times more resistance than competitor plastic screens to daily scratches and accidental damage from keys or equipment. Screen remains brilliantly clear long after plastic screens mark and fade leaving iPad screen obscured and unusable.
Camera Lens	Corning Gorilla Glass Lens maintains brilliant, clear, unobscured vision from both front and rear cameras. Please test if the flash function on the iPad Pro is required, as minimal optical refraction has been observed.
