The Antimicrobial iPhone® Case

WATER CHEMICAL SHOCK RESISTANT

Compatible with iPhone® SE2 / 8 / 7 / 6S / 6

FutureNova

iBioShield™ Slimline

Simple, safe charging

Resistant to chemicals

Custom branding

Resistant

Rubber overmould seal withstands infection control chemicals, liquid sprays and cleaning wipes without damage to the iPhone.

Material

Medical-grade, FDA approved plastic protects the device from abrasion and aids in infection control. Built to withstand a military drop test.

Antimicrobial

All surface materials are antimicrobially doped, essential for use in high infection control areas.

Screen

Tough, armoured glass screen is shatter-proof, resistant to daily scratches and accidental damage, and compatible with UV sterilisation.

Sensitivity

Highly responsive screen sensitivity, even whilst wearing surgical gloves. Complete keyboard functionality for seamless messaging.

Charging

8-pin to lightning port replicator allows for simple, safe bank charging through our Smart Adaptor, with Ground Control compatibility.

Weight: 70g; Outer Dimensions: 157 x 81 x 13mm
