

**Winner 2018**

Jack Baker, sales manager at Plastech Solutions, sponsor of this category, on stage with the team from FutureNova. On the far right, presenter of the evening Brendan Cole.

**FutureNova - The FlipPad**

The FlipPad, a medical grade case for the iPad designed by FutureNova in Chelmsford and manufactured in a factory near Oldham, is used by clinical staff when they need to keep the iPad protected and cleanable with harsh infection control chemicals. Surgical staff can use it with surgical gloves on, as well as with the Apple pen. Apple have provided consistent support to bring the FlipPad standard to their enterprise healthcare market. The company is exploring other Apple accessories for healthcare with the potential to enhance the ability of clinical teams to collect patient vital signs.

The judges praised the FlipPad as a rugged and user-friendly solution in clean room and sterile settings. The FlipPad is also venturing into new vertical markets, including food preparation, oil and gas and government sectors.

**Finalists 2018**

**Big Bear Plastic Products - RoofaRack**

RoofaRack, a lightweight roof box designed for the transportation of large sheet building, weighs 43kg, fits on all vans with a simple U-bolt system, and is ISO crash tested.

**Delivering Happiness Ltd T/A Garçon Wines - 100% recycled PET, flat wine bottle**

The first full-size wine bottle able to be delivered through a UK letterbox in a 75cl pack format is made of 100% recycled PET and manufactured in the UK by RPC M&H Plastics.

**RPC Group - Westland Even-Flo Container**

Designed and produced by 3 companies within the RPC Group, the new Even-Flo pack from Westland Horticulture is lightweight and, with 3 instead of 9 components, easy to assemble.

**RPC Massmould - Secure Flip Sports Closure**

The Secure Flip sports closure from RPC Massmould offers intuitive one-handed opening via an ergonomic Thumb Tab. Both parts of the closure's tamper-evident band are retained within the closure after opening, preventing littering.
